Second ward: Charles Eckert, Charles Garrett, E. F. Wolfert, and Frank Hall.

Is Name of the Play—Every Pupil In Room Takes Part In Operetta

The pupils of the 4A grade of the Maryville Public Schools under the direction of Mrs. B. E. Condon, gave the regular weekly assembly at the high school this afternoon. A pleasing little operetta entitled, "The Cruise of the Trundle Bed," was given by the pupils. Every one in the grade participated in the program. The following is a short story of the operetta:

Two little boys while away the time in bed before they grow sleepy by playing, "Sailing out to sea." Just as they have everything fixed to start on "The Cruise of the Trundle Bed," they fall fast asleep, so a good fairy comes on the scene and takes them on a journey around the world. In their dreams, they visit a number of foreign countries, but manage to get back just as the clock strikes 4, at which hour the fairy must disappear as she is not allowed on earth after daylight.

The following are the cast of characters:

MEET TO ADVANCE GREATER MISSOURI

J. F. HULL CALLS MEETING FOR APRIL 6.

ORGANIZATION PLANNED

Newspaper and Chamber of Commerce Men From Over State Will Convene at Jefferson City.

Kansas City, Mo., March 14—For a greater Missouri!

With this slogan as a goal for its activities, the organization meeting of The Missouri Association will open at Jefferson City April 6. J. F. Hull chairman of the Missouri Press Association "Committee of Sixteen," announced today, following a meeting with John M. Guild, General Secretary of the Chamber of Commerce of Kansas City and chairman of a committee that has had for its purpose the organization of a state chamber of commerce.

The sessions of the meeting will last for two days, closing Saturday night, April 7. There will be representatives from all over the state, including delegates appointed by chambers of commerce and all business bodies. There will be a strong representation of newspaper men, one from every county.

The joint call for this meeting is the result of a meeting held in Jefferson City at which the plans of the two movements the one to advertise the state by the editors, and the one to tie together its business organizations, were welded together, so that instead of two new organizations for somewhat similar purposes, there will be one united and stronger body with the newspaper men behind it

The purpose of the April meeting, as explained by Mr. Guild today, is to hear a report of his committee, which has for some time been analyzing the structure and work of state organizations, and if acceptable, adopt the form of organization that this committee will recommend. The proposed constitution and by-laws was reviewed by the "Committee of Sixteen" on February 24 and a sub-committee of the Press Association, consisting of Fred W. Mitchell of Excelsior Springs, M. L. Francis of Slater and J. H. Miller of Lees Summit, was named to go over the proposed organization machinery with Mr. Guild and come to an agreement on any changes that might be desired by the Missouri Press Association. The report the committee will make embodies the best feature of every state chamber of commerce that exists or has existed in this country.

"The Missouri Association is the response to a feeling long existing in this state that Missouri has been overlooked very largely by those seeking new homes" Mr. Hull stated, in outlining the importance of the meeting and its purposes. "The reason is due to the larger portion of what little exploitation there has been tending to repel rather than attract. The exploits of the James gang of nearly a half century ago still hold a permanent place in the minds of many people, while these same people know very little of the wonderful diversity of resources, the romantic state history, the scenic beauty, and the unexampled opportunities the state affords those who come here to invest their capital They look on the James gang as a type of Missouri's citizenship while we who live here know nothing could be further from the truth.

"One of the first steps in the organization's work will be to acquaint the people of north Missouri with the beauty of the Ozarks, with the wonderfully rich mineral deposits of that region, and other factors in other sections, and we want the people of that region to become acquainted with the great body of rich agricultural land in northern Missouri, and with other developments in those districts."

According to Mr. Guild, the success of the movement depends on the commercial bodies that have been invited to send delegates, giving this matter prompt attention so that the April 6-7 meeting at Jefferson City will be actually representative of the resources, possibilities and ambitions of the state.

Senate Votes for A School Survey

Passes Resolution Today Asking Carnegie Foundation to Survey Missouri School System.

Jefferson City, March 14.—The senate unanimously adopted the Painter joint and concurrent resolution today calling upon the Carnegie Foundation to make a survey of the educational system of Missouri from the University down, and to ascertain what was wrong, if anything, with the system.

The resolution was adopted without discussion, except that Senator Proctor said that the cost of schools was a momentous problem and the state should know if the money was being spent wisely.

The resolution now goes to the House for concurrence. It instructs all state officers to give aid in making the survey so that the results will be available at the next session of the assembly.

County Will Sue on Its Back Tax

Decides Today to Act on Delinquent Taxes From 1921 Back—10,040 Is Out.

The county court in session today ordered that immediate suits be filed by the county treasurer, Mrs. Edith Glenn, upon all delinquent county taxes of 1921 and all prior years. If the delinquent taxpayers do not pay before suit is filed, they will be required to bear the expense of litigation in addition to paying the back taxes if judgment against them is secured. If taxes are not paid then the land will be sold to satisfy the tax claims.

Delinquent taxes for 1921 were especially heavy owing to financial conditions at that time. However many of the back taxes were paid during the past year. At present there is about $10,040 on the delinquent books for the years of 1921 and prior.

The court this afternoon met with the attorney for the Guilford drainage board to discuss the matter of bridges along the way of the drainage system.

In the address at the assembly Dr. Hall was introduced by the Rev. S. P. Allison, minister of the Presbyterian Church of this city, which church was instrumental in bringing him to Maryville.

LEGISLATORS NOW GET $1 A DAY PAY

REGULAR 70 DAY SESSION ENDS LAST NIGHT

MUCH UNFINISHED WORK

Rural Members Anxious to Go Home —Adjournment May Come Within a Week

Jefferson City, March 14—Legislators in the fifty-second general assembly began today working on a pay of $1 a day. The seventy days of the regular session terminated last night, the expiration of that regular time bringing with it the reduction of salary from the $5 a day basis.

With most of its work uncompleted, the legislature must continue in session into next week, possibly until the end of the week. The senate has not touched the house appropriation bills. The senate probably will not be able to consider confirming the governor's sixty recess appointees until next week.

How long the legislative leaders will be able to hold the rural members here on a dollar a day cannot be predicted. Speaker Hunter announced the sergeant-at-arms would be sent after any house members who left without permission. Some of the rural members, eager to return to their duties at home, have had their belongings packed for several days, believing the session would end this week.

The appropriation bill was changed by house members last night by amendments. The fast disappearing general revenue fund was burdened further by the adopting of an amendment to appropriate $200,000 to drag the roads connecting county seats. That is independent of the work being done by the state highway commission.

Representative Bales of Shannon County was successful in striking out $40,000 to pay the expenses of the litigation by which Ben C. Hyde, state insurance superintendent, is seeking to reduce insurance rates 10 per cent. A part of the fund was to pay John T. Barker and Floyd Jacobs of Kansas City, who are representing the state in pending litigation. Bales said the $40,000 would come from the free textbook fund.

The appropriation for the insurance litigation probably will be restored later.

Bales also had stricken from the bill 60 million dollars to support the state tax commission. A bill has passed both houses to abolish the commission.

The house struck out an appropriation of $5,522 to pay A. J. Watkins of Ray County for twenty cattle condemned several years ago by the state.

A compromise was reached today between Representative Bales and Representative McGregor, chairman of appropriations committee, on the Bales amendments to shift 1¼ million dollars charged against the state school fund to the general revenue fund. Bales withdrew his amendments so the rural high school appropriation of $288,000 and vocational education item of $346,000 are to be charged against the school fund. Two items totaling $576,000 remain charged against the general revenue fund, thus taking that amount from money for the state institutions and the state government. Bales also succeeded in eliminating from the bill an item of $64,000 for industrial rehabilitation, which previously had been charged against the school fund. That amount is matched by the federal government and will be lost to the state unless provided for later.

15,000 FRENCH ARE ORDERED INTO RUHR

WAR OFFICE TO SEND MORE TROOPS THERE

MORE VIOLENCE FEARED

Believe Recent Flare Up of Violence Is Ill Omen—Poincare Back From Brussels

Paris, March 14—The first contingent of 15,000 French soldiers as reenforcements will leave for the Ruhr Friday or Saturday, it was officially stated at the war office today.

Orders were telegraphed this morning to Chaumont, Nancy, Tours, Lyons, and other troop centers to equip immediately a force to strengthen the army already in the Ruhr. The work of preparing the troops for field duty will be rushed.

The recent flare up of violence in sections of the Ruhr, which resulted in a score of French and Germans being killed and wounded, left a fear that guerilla warfare might break out on a widespread scale.

It is expected that Premier Poincaire, who arrived from Brussels yesterday, will acquaint his cabinet collegues with the developments of the Franco-Belgian conference.

The Misner Players are known all over the country and it is from the Misner school of Dramatics in Omaha that the majority of the talent for chautauqua work comes.

The company came to Maryville this afternoon from Bedford where they gave a performance last night.

Usually the company gives all three of their plays in one evening but a special arrangement was made with the Empire Theatre for a three day engagement in Maryville.

BERLIN SUGGESTS PLAN TO ENGLAND

INFORMAL "SUGGESTION" GOES TO PREMIER LAW

NO INTERVENTION NOW

Law Believes That French Would Resent Interference Now—May Accept Commission Plan

London, March 14—A proposition has just been brought from Berlin by a member of the house of commons, of the Germans submitting a new reparation offer if Great Britain would intervene in the Ruhr, but has been rejected by Premier Andrew Bonar Law, it was learned upon high source this afternoon.

This offer was made informally in the form of a "suggestion." Premier Law told the parliament that Great Britain was not perpared to take any steps in this matter at the present time. He expressed his belief that France would now resent any intervention and that they had already warned nations they would not countenance any interference.

It is reported that the "diehard" element is exerting a tremendous influence in the cabinet opposing British intervention. In diplomatic circles strong pressure is being made upon Chancellor Cuno of Berlin to accept the plan of a commission of political and economic experts to fix reparations and a guarantee to be set for the payments.

"Babe" Ruth Is Sued by 19-Year-Old Girl

Girl Asks $50,000—King of Swat Wants Trial Postponed Until After Baseball Season.

New York, March 14.—Dolores Dixon, 19 years old, who has filed a suit for $50,000 against "Babe" Ruth, came back with a counter blast after the King of Swat's denial that he had ever met her, had been made public. She declared that she was his companion on two occasions when he was arrested for speeding in his "Big Blue Boat." She said that he had nicknamed her "Billy" and was fond of calling her by that name.

Her attorney said that Ruth first knew of the suit when he was served with a summons on November 13, 1922. The attorney said that they had met through mutual friends, and that their friendship lasted from May, 1922, until August. The attorney said that she did not deny knowledge of him being married, but said that circumstances in the acquaintance would prove interesting when related on the witness stand.

New Orleans, March 14.—When asked if he would go into court at once to fight the suit brought against him by Miss Dolores Dixon of New York, "Babe" Ruth, king of swat, said this afternoon:

"You bet!" Then he hesitated and added, "hold on, I'll take that back; I am wiring my attorney to have the case postponed until after the baseball season. That is the only reason I want a delay for I started out to train so I could smash all home run records and I can't do it if I am hauled out in the middle of the season to attend a trial. This is the only reason I am asking for a minute's delay."

Get ALL The Power from Your Engine

SLOW starting—stalling—any number of engine troubles—are due to improper lubrication. This is particularly true in winter.

If you are not using Polarine, you are not getting *all* the power your engine is capable of delivering—nor all the economy. Polarine will avoid undue strain on battery and on starter. It will avoid worn bearings and scored cylinders.

Polarine gets into action the moment the engine starts, because its viscosity is scientifically correct—its body stable, without being heavy. Its consistency, even in the coldest weather, is such that it spreads quickly, forming a perfect film between all the moving metal surfaces.

Polarine is scientifically adapted to develop the full efficiency of your engine. The grade of Polarine specified in the chart is specified by our Board of Lubricating Engineers, who know the design and construction of your car.

Polarine

THE PERFECT MOTOR OIL

Made in Five Grades

It is the oil chosen by the driver who wants pep, economy and power from his car.

Polarine is a specialized product—made only from crudes chosen for their high lubricating properties.

Polarine avoids carbon troubles. This is proved by hundreds of tests, in laboratory and on the road—under toughest driving conditions.

Specify Polarine. Don't leave the choice of an oil to the garageman. The length of life of your engine, as well as your own comfort in driving, is involved.

The essence of true economy is to change your motor oil every 500 miles and fill up with the right grade of Polarine.

We met a traveling salesman friend on Main street the other day and he gave us a good prosperity note. He sells paper and he says he is disposing of more wrapping paper to retail merchants than in a long time. It goes to show, he argues that the merchants are selling more and that the people are buying more and there is more work and more business to give the people more money to buy more. Good logic is it not?

Next to the weather the chief subject of conversation of a lot of people is their ailments.

Skin Ablaze with Eczema

Constant Itching Almost Unbearable!

We know there is one thing that stops eczema, and that is more red-blood-cells! S. S. S. builds them by the million! You can increase your red-blood cells to the point where it is practically impossible for eczema to exist. We know that as

blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it! Skin eruptions, eczema with all its fiery, skin-digging torture and its soul-tearing, unreachable itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting-giants of nature! S. S. S. builds them by the million! It has been doing it since 1826! S. S. S. is one of the greatest blood-cell builders, blood-cleansers and body builders known to us mortals! When you put these facts together,—then to continue to have eczema and skin eruptions looks more like a sin than a disease. Mrs. Arthur N. Smith, Pearl St., Newark, Ohio, writes:

"My little girl had a very bad case of eczema. She began taking S. S. S. and is well now. I thank you very much. I tell my friends what a good medicine it is. I cannot talk too much about it, for I know it is O. K."

Here is your opportunity. S. S. S. contains only vegetable medicinal ingredients. Because S. S. S. does build red-blood-cells, it routs rheumatism, builds firm flesh, fills out hollow cheeks, beautifies the complexion, builds you up when you are rundown. S. S. S. is sold at all drug stores, in two sizes. The larger size bottle is the more economical.

S.S.S. *makes you feel like yourself again*

Save from $52 to $78 a year

You will be amazed to see how the use of "Bull" Durham will cut down the cost of your smoking.

How is it possible to give you quality at the low cost of 10 cents for 50 cigarettes?

Here's one reason: The government tax alone on 50 machine-made cigarettes is 15 cents—5 CENTS MORE THAN THE COST OF 50 "BULL" DURHAM CIGARETTES TO YOU!

The average smoker saves $1 to $1.50 a week by "rolling his own" from "Bull"—or from $52 to $78 a year. This makes quite a Christmas fund—or pays for a fine trip.

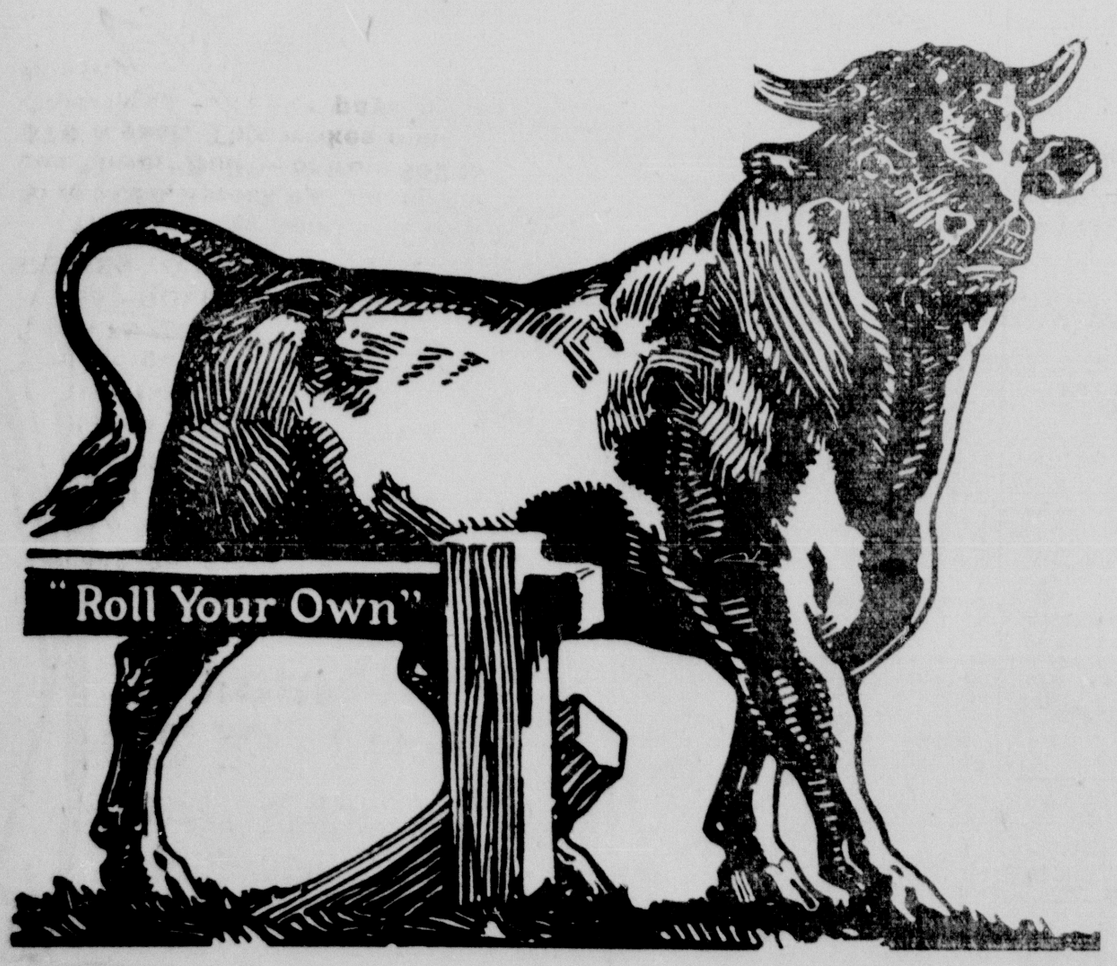
"BULL" DURHAM TOBACCO



★ What a place "Bull" Durham holds in the hearts of Americans! Can you think of any other brand that has been the favorite of three generations?

Look at its history. From the Civil War to the Great War "Bull" Durham has been the American's greatest standby. Sixty years.

There really is no smoke in the world so altogether satisfactory.

A "Bull" smoker never switches. You can't interest him in any new experiments. He carries his preference wherever he goes.

This is because the special flavor and aroma of "Bull" Durham make a cigarette that can not be duplicated.

Find out. You will never know how good a cigarette can really be until you roll your own out of "Bull".
